NICARAGUA-VICTIM or VILLIAN

The Republic of Nicaragua

by Monetary Science Institute
P.O. Box 86
Wickliffe, Ohio 44092

Republic of Nicaragua - population 2.9 million, about the population of the city of Boston, Mass. Population density about 40 people per square mile - against 64 per square mile in the United States. Land area - 57,000 square miles, about the size of the state of Iowa.

If the total population of Nicaragua were communists or Cubans - they still would be far less of a threat to the United States than the Communist Republic of China with its population of 1.022 billion, and a population density of 278 people per square mile.

It would appear from the above statistics, that China's communism with its great and dense population, would/could be about a 300 times greater threat to the U.S. than the little Nicaragua - and yet, there seems to be no outcry from the President and other communism fighters, to defend U.S. against a potential population expansion of China, that may someday rain Chinese communists into the Western Hemisphere like April showers.

Does President Reagan know something about Nicaragua that he is not sharing with Congress and the public? Are the international financial brain trusts reconditely using the contras and the prestige of the U.S. President and power of the United States to undermine and overthrow any government of Nicaragua, even if it be a pure democracy, if it should be friendly to/with another superpower?

Let's analyze who has the most to lose, if there should be a good and stable government in Nicaragua, friendly to the Soviet or any other superpower.

A. Any stable and good government in Nicaragua and friendly to the Soviet Union - is potentially a real threat to the international banking cartels - because, Nicaragua, with the aid of the "Russian Ruble" can

Do Banks Create and Destroy Money?

by Monetary Science Institute
P.O. Box 86
Wickliffe, Ohio 44092

The Federal Reserve Bank of New York, in a 1969 publication titled: "MONEY: Master or Servant?" writes: "Although this idea that anyone can 'create' and 'destroy' money seems strange at first glance to most people, we shall soon see how this can be done".

"But let us remember that, among the financial institutions, only the commercial banks - those that provide their customers, or depositors, with checking accounts - can 'create' or 'destroy' money."

At this point, it is important to recognize and understand that the banks, specifically the commercial banks DO NOT,

and CAN NOT, create (print) the physical Federal Reserve notes paper currency. The type of money the banks create is checkbook "deposit credits" money. Checkbook "deposit credits" money is bank money, and in no way government money. Bank money is nothing more than bookkeeping or accounting, dollar-denominated, "deposit credits" figures, entered into the borrowers' checking accounts, via the bankers' spending, lending and bank investing operations.

Just for a moment ponder, and you can visualize the tremendous open loop-hole to free lunches for the bankers. A bank officer can pay for his lunch with a check drawn on his bank (generally called a cashier's or officer's check) and with that check, indirectly create

"deposit credits" to the credit of the restaurateur's checking account as payment for the banker's scrumptious lunch or dinner. Even the President of the United States can not swing such a bargain.

The Federal Reserve's publication "MONEY: Master or Servant" continues: "Let's find out something about this checkbook 'deposit' money. Therefore, first of all, where does it come from, how does the money the bankers call demand deposits, get into the banks?"

"The answer to your question is that the commercial banks via a precise accounting or bookkeeping procedure create demand (checking account) deposits, via making bank loans and bank investments".

War Los Angeles

Tom Metzger and other Aryans appeared in Los Angeles Superior Court recently. This hearing was for motions only. Judge Horowitz overruled almost all motions from the defense.

It has now been three years since the arrests. The charges violate both federal and state civil rights laws. But of course, we all know that White racials do not have such privileges of the state. Next stop on this railroad will be March 5th, 1987. At that time the preliminary hearing is scheduled to begin.

War California

The "Weaselthal Holy Hoax Center" was the scene of another glorious event recently. Federal Injustice Department Attorney, Neal Sher, gave a lecture to those in attendance on what a wonderful job he was doing hunting down 80 to 90 year old alleged Nazi war criminals around the world.

In attendance was Rad Artukovic, son of Andrija Artukovic, 87 now, being lynched Jewish style in Yugoslavia.

When Rad asked the Yugo goy-boy attorney to prove his charges against Rad's father, some Jews attacked him physically. Of course, U.S. Attorney Sher is a very fair minded man when he quipped to Rad Artukovic "Your father is a mass killer". So much for justice, Jew style.

War Los Angeles

Several months ago, four members of a Los Angeles-based National Socialist group were arrested at a German bar and restaurant known as Alpine Village. They were arrested for refusing to leave the dining area. The reason - they were wearing very small swastika lapel pins.

Arrested, bailed out, and now after several months, the A.C.L.U. has taken their case against the restaurant for damages.

Recently, 40 Los Angeles Jews and "Righteous Gentiles" met in the Alpine Village restaurant to salute the manager Hans Rotter for his valiant stand against those wicked Nazis. Only one thing has been left out.

The Alpine Village has been a watering-hole for Los Angeles White Racials for many years. In fact, your editor, as far back as the early seventies, chaired and attended meetings of White Racials at the Alpine Village.

Several leading figures in the White Racialist movement attended meetings held at the Alpine Village. There was never even a fee charged for a meeting room, to my knowledge.

Looks like Los Angeles Jews have goofed again in their premature tribute to the honchos at the Alpine Village.

War Washington

Henry (Boar) Kissinger, H.R. Halderman and John H. Mitchell must go to trial for illegal wiretapping back in 1972.

The three judge panel has agreed Morton H. Halperin has the right for a trial and damages resulting from a 21 month illegal wiretap by federal officials. Halperin was a National Security council aide. The interesting part of the story is about newsreporter Hedrick Smith. The judges threw out his damage claim that resulted from illegal wiretapping by the same government official, while stating in the latter case that "there is no dispute that the challenged wiretaps were illegal." However, the panel held that the reporter Hedrick Smith could not recover damages because the defendants could reasonably have believed in 1969 that the need to find sources of National Security disclosures legally justified warrantless tapping of the telephone of reporters and officials.

Editors Note: Read this one again and tell me who's crazy.

War North Carolina

Cecil Cox, leader of the Southern National Front, reports progress in the southeast. The traditional Robert E. Lee celebration and march will take place on January the 18th, in Raleigh, North Carolina at 2:00 p.m. The Southern National Front will also march in support of the Africaner Resistance Movement in South Africa.

At the next march in conjunction with this march, Stanley McCollough of the Knights of the KKK, will march in Pulaski, Tennessee. This will be a great show of solidarity.

On the legal front, Steve Miller has filed his appeal. Glenn Miller, well-known White nationalist, has had his appeal delayed several times.

Cecil Cox has agreed to appear on "Race and Reason" TV show at a later day, representing the Southern National Front. "Race and Reason" is being seen in Richmond, Virginia and soon in Raleigh, North Carolina.

War Bureau of Prisons

Recently the efforts of that slime-ball group known as the Jew Anti-Defamation League, has directed its wrath against White Aryans in prison.

Within 30 days of the big push by the A.D.L., the Federal Bureau of Prisons began a major clampdown on any inmate that is perceived to be proud of being a non-Jewish White.

All types of internal sham investigations were launched against White Aryan prisoners. Mail has been scrutinized and photocopied, racial newspapers have been returned in many cases. In short, the boys are at it again. Never mind, our team is working on it.

War Los Angeles

Homeowners are steamed at the "Weaselthal Holy Hoax Center". Recent announcements of a 35 million dollar expansion has many up in arms. The Bev-Rox homeowner's association are claiming increased traffic and congestion.

Another vocal opponent is David McCalden of Truth Missions. McCalden distributed hundreds of leaflets throughout the community warning citizens of criminal activity in the development of the added facilities.

McCalden was contacted by the editor of the "Los Angeles" newspaper, none other than Herb (Rigor Mortis) Brin. McCalden further steamed the super-Jew when he announced that he was going to Oslo to picket Elie Weasel's Noble Prize Bash.

FBI Karate and Congoid Killer of Aged Ladies

Compare this with the congoid karate expert in East Washington, Pa., who according to the local newspaper there, burst the internal organs of three White women, ages 88, 88 and 84. By karate blows to their abdomens, this brave soul brother killed these ladies. It is interesting to note that he had been released three days before the slayings at the request of the FBI. Held in the Allegheny County Jail, he had ratted on a cellmate and so the FBI, that protector of citizens, prevailed upon the local authorities to release the congoid karate expert. With a national secret police like the FBI, who needs criminals? In fact, honest citizens have more to fear from the FBI than do professional thieves.

Where is you J. Edgar?

Where was the FBI when a dozen black youths attacked and severely crippled a White boy, age 15, in Milwaukee? The blacks were never charged with racially motivated assault, as are Whites when the situation is reversed. In fact, the dingalings on the court benches only gave them 2 years for the attack. But then, Whites mean less to ZOG than the others anyway!

But When Whites Prevail

Yet, in nearby Madison, Wisconsin, when five White men fought against Nigerian students in a bar, the glorious arm of federal injustice came running to the aid of the congoids. ZOG immediately charged the Whites with civil rights violations. Instead of a mere bar room brawl, the tookus ticklers of La Cesspool Grande DC created a racial incident out of it. Fortunately, the jury saw it for what it was, a simple alcoholic fight, and acquitted the Whites! But what kind of a government would take a position like this? Why, a ZOG garbage pile, of course, what else?

NYSE Suspends Boesky's Access

NEW YORK (UPI) - The New York Stock Exchange announced late Friday that Ivan Boesky, the central figure in the largest insider trading scandal in history, had been suspended as an electronic access member of the NYSE and from association with any NYSE member. The suspension took effect at 4 p.m. EST.

"We took these measures following review of the action brought by the United States Securities and Exchange Commission against Mr. Boesky for insider trading," Robert Birnbaum, NYSE president and chief operating officer, said in a statement.

'Patriots' indicted in armored-car plot; FBI points to mangled hand to illustrate its case

By ANDY HALL
The Arizona Republic

When Monte Dayton Ross raised his right hand to be sworn in, the missing thumb and parts of two other fingers were stark reminders of an alleged plot in which he was labeled the "bombmaker."

Ross's testimony at a bail hearing in U.S. District Court in Phoenix came as problems deepened for the defendants in the Arizona Patriots case Wednesday,

with federal grand-jury indictments charging five self-described Patriots in connection with an alleged plot to rob an armored car to finance a survival camp for white supremacists.

The wife of one of those defendants was indicted on charges of pointing a revolver at an FBI agent attempting to arrest her husband.

U.S. Magistrate Morton Sitver ordered Ross and two others held without bail,

saying they might pose a danger to the public and might flee if released.

In the first testimony by any of the defendants, Ross, 22, said that he supported himself by trapping, hunting and working at ranches. Ross lived in a tent about 35 miles east of Kingman, an arrangement his court-appointed attorney, Gregory Jordan, argued was no more

BY KARL HAND

To all NSLF'ers,

On December 5th, 1986, I was found guilty, by a jury of attempting to murder one Neil Ludkenovitch of 2401 Pasadena in Metairie, Louisiana. Ludkenovitch is a local dopehead and he and his friends had been conducting a campaign of harassment against my wife and property, possibly at the instigation

Actually, I can't blame the jury for voting as they did, they voted 11-1 to convict, and they needed 10 according to Louisiana law. My attorney, court appointed, was so inept and ill prepared, calling him incompetent is doing him a great service. He didn't produce a single piece of tangible evidence, and the prosecution's witnesses went unchallenged as they went from fabrication to obscure testimony, and back to fabrication. The prosecution was permitted to introduce politics into a criminal trial, obviously not convinced that he could win without doing so. The judge ruled against us on every motion and objection, few as they were, due to my attorney. In short, the cards in this judicial deck were stacked like poker chips. The judge actually registered surprise when the jury poll was taken and it became known that one juror, a World War II veteran, voted for me.

About two minutes before the trial was to start, a plea bargain was offered to me, it went like this: If I plead guilty to aggravated battery, they would arrange a pre-sentence investigation and based on that, he would not sentence me to more than 10 years. Then came the clincher. If I didn't accept the plea, and if I was convicted, I would not get less than 10 years. I must assume that the judge meant what he said and that is the purpose of this letter. First there are two individuals who need to be men-

tioned: Ray Leahart, who gave us unlimited personal support, and Dave Lillier, an unaffiliated White racist who testified on my behalf that Ludkenovitch came at me with a shovel handle when I shot him. Since I am facing at least 10 years when I go for sentencing on December 12th, it is important that we make some kind of organizational provisions. Let me say that the action that I am about to outline is not undertaken without taking everything in consideration, both the pro's and the con's. My one concern is to do what is best for the movement. If we, as a race, are to overcome the obstacles ahead of us, we must learn the technique of turning adversity into advantage. That is the key to success.

I have but two real alternatives, namely, to appoint a successor, or to merge NSLF with another group. I did not even consider the possibility of just disbanding it, or allowing it to die a slow death, as too much time, energy and sacrifice has been placed in it. Despite the many fine people in NSLF, and despite the dedicated and qualified unit leaders, appointing a successor means that I would have to hand NSLF over to someone who has not demonstrated the ambition to lead. The danger here is that if a person has not demonstrated that ambition, how should I select him over someone else, or how am I to be sure that he can handle the responsibility? How would I know that NSLF would not die a slow death and all of our efforts would go for nothing? The gamble was too great. You and I deserve a sure thing. The Jews deserve a sure thing.

Our race demands a sure thing.

The only logical solution to this dilemma appears to be a merger. I have given this much thought. I have gone over many possibilities. I have friends in many groups, but again, my decision is based upon what I believe is best for the movement. Hard times demand hard deci-

sions, so, although I don't like the thought of relinquishing control to someone else, it must be done. As long as it must be done, I have chosen what I believe to be the best possible choice. The major consideration was to merge with an organization closest in posture to NSLF. The organization that meets that criteria is White Aryan Resistance (WAR), headed by Tom Metzger.

To be sure, Tom Metzger and I don't agree on every single point, but on the most important issue, that of White survival, we do agree. Furthermore, Tom is a dedicated individual, untainted by greed or scandal, and a professional in every sense of the word. He is a family man, a business man and a true revolutionary. His address is: P.O. Box 65, Fallbrook, Ca. - 92028.

With this in mind, I am encouraging all NSLF'ers to join and support Tom Metzger. In the past I could always depend on you to respond to your duty. Now that duty is to give Tom Metzger the same kind of support and loyalty that you have given me. Let's show the Jews that under whatever banner - we shall not be stopped. Under whatever suppression - we will endure.

From Tom Metzger:

Karl Hand goes back many years to the struggle on the streets of Buffalo, where Karl battled the enemies of our race, as a National Socialist, then as a strong officer in his own right in the KKK. Karl is not a stranger to struggle and sacrifice.

Not long ago, Karl was married to his lovely wife Mary Sue. Your editor was an invited guest and best man. Pastor Robert Miles officiated.

Karl, like many others, is being persecuted not prosecuted. Our political and racial ideas constitute 90% of the prosecution's case. Only 10% is for the alleged crime against the state.

Karl Hand has asked me to offer my leadership to his membership while Karl is incarcerated. This I accept. The NSLF grew out of the leadership of Joe Tomassi's well known and respected West Coast operation. I met Joe on several occasions and found him to be light years ahead of most of us at that time.

We have a lot of history to work with. That history of blood, sweat, and tears must feed a movement for the 21st century. Make no mistake, we are behind the lines in a vicious war unprecedented to our Aryan people.

Racially conscious Aryans are in the minority. Of those, many do not have the more important ingredient - an Aryan heart. Karl Hand has both and we won't forget it.

WHOSE DEFENSE

To cry for National Defense has become the last refuge of tyrants. Both U.S. and Soviet Big Brothers realize the great control that they hold over their citizens by saber rattling. The so-called military industrial complex grinds on, eating up more and more of the wealth of the people.

The phoney Communist/Anti-Communist struggle has made millions for unscrupulous officials, businessmen, and last but not least, the conservative evangelist types who have milked millions from boobs like us who at one time were true believers also.

What would both Big Brothers do if a pin punctured their giant scam and it collapsed? Of course, then Aryans would be forced to look around this vast genetic refuse dump and admit that while our so-called leaders fiddled, the Third World was under the house eating away at our foundations. I must add, not without the renegades' full knowledge.

One glaring example is the military itself. Ostensibly it's there to protect us. "Us What?" I guess they mean anybody that is capable of crawling or walking across our borders and working in a puke-in-the-box restaurant.

The U.S. military has become possibly the greatest enemy to Aryans. The bases are the greatest areas of race mixing outside hymietown. Every form of perversion, drug addiction and other criminal activity thrives on or around military bases.

Due to the anti-Aryan teaching of young people in the first twelve grades along with the adulation of our non-White neighbors, what could be expected?

By the time these young Aryans reach the military, or shortly after, it becomes an

article of faith, when leaving the base, to be arm and arm with the blackest troop he or she can find.

Of course this is for our own good defense. I personally believe the Aryan people would be far better protected if they had no military at all. We as a people cannot expect to exist as a people with such a fine defense. Why? Because it is not defense, either of us or Aryan Europe. It is occupation by an alien force that will at some point be used against us physically.

Operation Garden Plot, which we have discussed in earlier issues along with the sinister FEMA (Federal Emergency Management Agency), are poised to strike down any popular or unpopular uprising in this country.

I hope you finally get it through the chrome dome that this nation never won against any so-called Communist force simply because the shepherds of the goy did not intend it to be that way. National emergencies and National Defense are used to centralize power and change the social structure of the subjects.

The only time there was ever a victory against Communists was in Greensboro, North Carolina when several Aryan working men did the job themselves. And who tried to hang them? Your grand anti-Communist government, of course.

It was about three years ago that Robert Mathews, nationally known leader of The Order, was murdered by a gang of Federal whores on Whidbey Island in Washington State. Assisting in that execution were elements of the U.S. military.

Future attacks on organized Aryan resistance will undoubtedly emanate from your area military base, your great defenders.

NOTICE

Many of those who contemplate a move into the Northwest are seniors. A large percentage of those seniors have some sort of dependable income separate from the ups and downs of the local economy. Many will seek a home and business in areas of higher property values thus cutting the struggle even more.

The long range goal of the extended Aryan family should be the passing on of homes, trades, farms and savings to those who will follow their footsteps.

Those Aryan seniors that shortsightedly will their property to those that are not active in the struggle for the race, waste a valuable weapon.

In many cases, families not only do not support the views of Aryan seniors, but actually use their inheritances against the Aryan race.

Aryan seniors are encouraged to seek out active fighters in the struggle and name them to carry on your ideals. Keep your home Aryan, pass it along. For assistance, write the WAR headquarters - P.O. Box 65, Fallbrook, Ca. - 92028

To the Editor:

"The only way it will fly"

The "system" under which we exist today is comparable to that of a plane's operation.

There could be no power generated by the shaft, if there were no right and left prop blades. If one propeller should fall free, it would become an independent object, free from the plane, or system that controls it.

But then, which one is the more dependent?

The propeller is just a part. It is the main body, the plane, that is rendered useless.

How long will we continue to be "pawns" in their game?

It is the right and left wing political factions that keep this "system" operating. Take away the left or the right wing, or both, and this system will go "belly up".

If what we have experienced in the past is either patriotic or christian, I want no more of it.

This melding together of "centralized government, and organized religion" in holy matrimony, makes for no wedded bliss for the inhabitants of this nation. It is utter confusion.

"Pull the props", and watch the towers of Mystery Babylon come tumbling down. N.B.

NEXT EPISODE. ALL MY CHILDREN?

JOE HADANUFF

=HANKS=

Beginning in the early months of 1986, Aryan Nations faced a serious treasonous attempt to discredit and eventually undermine and destroy Pastor Butler's lifelong labors. Fortunately the conspiracy failed, and those responsible are now behind bars, awaiting trial. Aryan Nations suffered only a momentary setback, and has resumed normal operation, and is stronger and more dedicated than ever, having learned an important lesson from it all.

The following list of events will describe the basic nature of the blueprint for treachery and should stand out as an example to all other movement factions who share in the struggle to awaken and instruct our people: For the past eight years, David and Debbie Dorr, a young married couple had been living in the Hayden Lake vicinity. They claimed they had moved from northern California where they had been involved in a survivalist paramilitary group. Around the middle of 1985, Debbie began to volunteer her secretarial services to the church and would come in two or three times a week. Though the couple were allegedly experienced in police work as ex-sheriff's deputies and claimed to be registered private investigators, they never appeared to have full-time, regular employment, but always had money. If, in fact, surveillance was their game, we must ask ourselves to whom their surveillance was directed. What was their motive? And, who, if anyone, was backing them? These and many other questions will hopefully be solved in the final investigation.

The Dorr's took full opportunity to meet and circulate with anyone associated with Pastor Butler or who was even remotely involved with the movement. Everything went relatively smoothly until just after the Aryan Nations Congress, July 12 and 13, 1986. It appears that soon after the Congress was held, Debbie began a telephone campaign to discredit the good pastor and his organization, using his own telephone from his own office at church headquarters.

About August 5th a Robert Pires enters the scene from Maryland, where, it seems, he was running from a parole violation and stolen weapons charges. Unaware of his Maryland entanglements he is allowed to stay at the church campground for three weeks, whereupon he leaves for a mysterious "trip to grandma's house" in Medford, Oregon. Two weeks later he returns to northern Idaho and moves in with the Dorr's and Ed and Olive Hawley (the two families are living on a small farm several miles from the church).

During this period the newsmedia is giving full support to the local Kootenai County Task Force on Human Relations, led by the born-again ultra-liberal Catholic priest, The Reverend Bill Wassmuth. Some suspecting souls saw trouble brewing as an orchestrated media gathering was being set up by the Task Force and the "unknown sponsors behind the scenes" (possibly the ADL, which, it seems, is behind everything else the liberals in the northwest

The values seem small, of not too much importance in the great world of today. We look about us and we see the absolute necessity for a new and larger, more exotic part of the globe, and for that bit of plastic which will provide it all - and thralldom as well. What can fleeting memories of a mother's love, or a father's guidance and care mean? Nothing, of course, if you have had little of the former and none of the latter.

Reflect upon your own life. If you grew to be an adult in a home with a mother and a father you are becoming something of a novelty in Western lands today. If you lived in one home with your parents all during your childhood, then you are even more of an oddity for we have become a population of wanderers. We seek the phantom of not only new and better mates, but new and better jobs, houses, cars, all of the material things of this world which our society tells us are the important aspects of our life. Success is judged by the amount of one's acquired wealth.

We look down upon the family with several children, whose father toils each day to provide the necessities for his brood while his wife is forced into the menial role of "housewife." The poor woman's entire life is ruined because she is tied to her children, to their daily care, to their education. We blame it on today's hectic pace when our own children are found to be drug users; our daughters are either the bearers of bastard children or have them aborted by the friendly folks at the neighborhood abortion mill - financed by our tax dollars. We do not see the lov-

ing family circle about that other humble table as the family strength of our race as they unite to share a meal prepared by loving hands.

Nor do we look into the subject matter forced into our children at the public schools. Life is too short to be wasted on such trivia as understanding the contents of the textbooks, or investigating the background of the teachers, or the philosophy of the national organizations which now have complete - well, nearly so - control of classroom education. More important is our meeting on the golf course or attending the cocktail party where booze, dope and sex reflect the fact we have "arrived" and are part of the "today scene."

We take it for granted that man and wife must both work, both must bring in a pay check, for how else can the necessities of life be assured? How can the payments on the two cars, the jet ski, and last year's drunken binge at the beach resort be paid for? How indeed? Life has become so simple. It is devoted to the acquisition of material signs of affluence; emotions are regulated by the intake of narcotics and the care of our children can mercifully be left to the state. It is life in the fast lane - leading to oblivion!

As the material world comes crashing down, as the dopers and race mixers of the 20th Century look upon the world through the distortion of reality prompted by their governments, they just might see the passing of the Aryan family. Such is the goal of those who are nearly complete in their

The Durr Incident:

The AIDS Backlash Begins

By Ashley Ryan

A recent case of AIDS backlash in America's heartland provides ample evidence that the AIDS epidemic may prove to be the Aryan Racist Movement's greatest ally.

A news article in the System press detailed the case of Mrs. Margaret Durr, a public health worker employed as a nurse by the Reno County Public Health Department in Hutchinson, Kansas. Mrs. Durr, a practicing nurse for over 14 years, was dismissed from her job by the Health Department after refusing to visit an AIDS patient in his home, in order to assess his home care needs. Although at first not thinking of refusing to perform this task as a necessary part of her employment, Mrs. Durr refused the sordid job after an evening of discussion with her husband, Duncan.

Mrs. Durr stated that her refusal was largely based upon the fact that "There are just too many unknowns. And we were concerned about our family's well being." Mr. and Mrs. Durr are the proud parents of four children.

Mrs. Durr's dismissal comes after fourteen years of continuous employment. She is a woman who has never known unemployment. The incident, however, seems to have led her to the belief that accepting unemployment compensation is perhaps the only small course of action in retaliation for her ouster by a public entity she had so well served these many years.

"I felt like I had been hit in the gut and had all the air punched out of me", she stated. This was in response to the fact that the Public Health commissioner appeared at what was to be an "informal" hearing, armed with three System medical "professionals" who

testified to the sheer lunacy of Mrs. Durrs concerns. (This in the face of the Center For Disease Control figures which show that 1 in 20 AIDS cases have "No known/apparent" cause!)

"They tried to imply that I was discriminating against somebody. I'll tell you honestly, I've never discriminated against anybody in my entire life", Mrs. Durr continued. Such responses are heard more frequently as the ZOG system attempts to portray AIDS as a civil rights issue instead of the life-threatening pandemic that it is!

The Durr incident is only the first of cases such as this which will occur in the days ahead. Aryan racials have by now come to the conclusion of the dire consequences emerging from the AIDS pandemic. But more importantly, the Durr incident points to the possibility of great gains for Aryan racist action.

Margaret Durr has come face to face with the thin veneer of the ZOG System and all its lies. Perhaps spending her entire life without even questioning the underlying notions of continuous blood defilement and concepts of equality, Mrs. Durr has now accidentally clashed with the demon behind the mask of "humanitarian concern". Mrs. Durr has resigned herself to the fact that she may never work again. Such is the blackmail/hatred of the System for anyone who questions its doctrines of "equality" as interpreted through its blood-defiling practices.

Individuals such as Mrs. Durr are prime candidates for introduction to Aryan racist ideas. At a time when all her world is collapsing, she needs to know that there are sympath-

WHITE POLITICAL PRISONERS

Notice: Not one of these men is behind bars because he broke a ZOG law to enrich himself. These men went to prison to fight the destruction of our race. They are political prisoners and our highest living heroes. Woe to those who do not aid and honor them and their families in their hour of need.

Marion prison makes inmates feel helpless

Editor's Note: The following column represents the writer's beliefs about conditions at the U.S. Penitentiary at Marion; it is not an actual memorandum from the Bureau of Prisons. It was written to mark today's third anniversary of the beginning of the lockdown at the prison.

By Nancy Horgan

Report from the Brave New World Planning Department, to Norman Carlson, director, Bureau of Prisons, on the experimental three-year lockdown of the United States Penitentiary at Marion, Illinois.

For three years, we have operated Marion on lockdown. The goal of the experiment is control: to isolate the prisoner from any source of emotional support, increase his distrust of everyone, and convince him that he is helpless.

We limit contact with family and friends, and we listen to every word. We read all mail, coming and going. We limit telephone calls to 20 minutes per month, monitored and tape-recorded. Visits with family are through glass and over a telephone. The conversation is monitored and tape-recorded. No touching is allowed. Throughout the visit, some pris-

oners are kept in handcuffs, waist chain, and a painful, immobilizing "black box" clamping their wrists together. All prisoners are strip searched before and after the visit even though they have no physical contact with their visitor. This means that guards inspect their bodies, peering into their mouths, noses, ears, armpits, genitals, and

anus.

With these methods, we are able to turn what could have been a positive and happy event into a distressing and frustrating experience for the prisoner and his family. The small number of visits bears this out.

We enforce isolation within the prison, too. With so little out-of-cell time, there is almost no opportunity for prisoners to have ordinary conversations and interaction with others in the unit. They have no contact with prisoners in other units. They are periodically transferred from one unit to another with no explanation. We've caused many prisoners to stop forming close friendships, because they know that they will most likely be separated from anyone they associate with.

By eliminating friendships, we've been able to increase racism. A prisoner who knows no one well, and has no normal contact with his fellow prisoners, turns to those of his own race as least likely to be hostile. As former warden Jerry Wilford said in April 1984, it is in the administration's interest to keep prisoners fighting each other, so they won't turn on us.

We've been able to use the dis-

covery that the prison's water source, Crab Orchard Lake, is contaminated with PCBs and dioxins. At first we talked about finding a new water source. Now we tell prisoners there's nothing wrong with the water, despite all reports to the contrary. Some prisoners exhibit unusual skin disorders that don't respond to treatment. But they have to use the water, and they see that they are powerless.

Some prisoners still protest, but we have made it much harder for them to file grievances. We make it harder to get a grievance form, taking longer to answer each grievance, and ruling that a prisoner may have only one grievance pending at a time. Prisoners have to exhaust the grievance procedure before they can file some lawsuits, so this cuts back on the lawsuits we have to face, too.

Arbitrariness is one of our most important tools in disorienting and isolating prisoners. We could double prisoners' out-of-cell time without changing any of our security procedures, but we don't. We could double prisoners' phone call time and their visiting time (since the visiting room is never full), but we don't. We have

MOVING TOWARD RACIAL AND ETHNIC NATIONALISM

Letters to the Editor

Sacramento

'Race And Reason'

Concerning your front-page article Nov. 22 "Cable begins airing white supremacist program": The attempts by the National Association for the Advancement of Colored People, Urban League and Jewish Federation to remove from cable public-access channel 23 the Race and Reason talk show is both inexcusable and intolerable. The futile and crude measures to deprive the white community of Sacramento the privilege to watch Race and Reason has proven the blatant disregard and contempt that a particular group of minority organizations holds toward the rights of the white community.

How dare the NAACP, Urban League and Jewish Federation "gang up" to intimidate and tell the white community of Sacramento that we should not have the choice to review and understand our heritage, culture, faults and aspirations through the only existing white-oriented talk show in America.

GREG WITHROW.

Sacramento.

Dear Mr. Metzger,

I had the pleasure recently of seeing you on Ch. 51 with Stanley (Stanley Tonight show). Also made it a point to listen, when you were a guest a few days ago on radio station KSDO (Talk Show).

Your courage stood out like a beacon on both radio and TV. I see you did not flinch when attacked. Instead, you had the gift to rise above it.

I did love your magnificent ability to stand up and be heard, as you either stood or sat, at Stacey Taylor's side, when on the air (at KSDO). Even if the adversary might be 6 feet tall (I don't know Taylor's height), you delight me in your ability to reduce them to approximately 1/2 the size they were, when they entered the arena.

Best Wishes,

from E.G.

Tom,

Your paper arrived and I'm very enthusiastic about it; it is just what we wanted. I'm getting tired of other publications which carp endlessly about problems, but offer no solutions, or papers which re-hash old stories and have endless "patriots of the past" articles. As soon as I'm able, I'll send for a subscription and back issues. This is the type of paper we've been looking for.

Re: anti-"Ruski" propaganda (Vol. 5 #3). You might also mention that this is a technique of the system to get patriot's attention fixed on our outside problems to divert their thoughts from domestic enemies. (external pressure=internal stability)

Re: Producing White child. Fine! Great! I'd love to do my share. Problem is, finding a White woman who hasn't bought the Jew/Feminist propaganda about being "wonder woman of the Eighties". Too many women are conditioned to believe that being wife and mother is degrading, and that to be "worth" something they have to become independent and compete with men in the job market.

The end result of this conditioning is obvious, as far as White birthrate is concerned.

Hope you can use the material enclosed. More will be sent later. Sincerely, R.L.

Tom, family,

Hello chaps! Trust everything is well with one and all; it seems a while since we were over there, but that hasn't diminished the memory of the good times spent there or your totally dedicated, but "let's enjoy life" approach, to the cause.

Over here we've all been active in the last few weeks taking part in various rallies and marches.

Film 86, which is a review program of newly released films shown prime time on B.B.C., has just given the full sympathetic treatment to "shoah", a 9 1/2 hour documentary, all about the holocaust. One clip shown has an old S.S. officer recalling what happened, to what he thinks is a friendly ear, but doesn't know he is being secretly videoed and recorded. Of course he manages to recall just about everything the director wants him to, which means he has either a remarkable memory or perhaps more likely he was up all night learning his script. But then again, it might be unfair to judge 9 1/2 hours of "painfully researched evidence" on a 3 minute clip. So they showed two more clips of "survivors" relating their nightmares and dutifully breaking down in front of the camera!

Hope we can meet again.

See you,

Barry

RISE UP AND STORM BREAK LOOSE

Thank you for having sent so many issues of W.A.R. on faith alone and my original three dollars enclosed with my first inquiry! It's about time I came up with the standard (extremely reasonable) subscription rate. It's a very good newspaper and I realize that it's just the visible result of an awful lot of hard work, devotion, and sacrifice. That's a woefully inadequate description of the labors and tribulations experienced by many of the Great White Men involved in the struggle. You have made this clearly and painfully evident in your to the point and eloquent paper. Anyway, I want to thank you for all the love and sweat that goes on behind the scenes everyday by you Mr. Metzger, your "staff", your friends in the struggle, and all White men involved all over the world - as well as for your excellent paper. I hope to be making plenty of contributions in the future.

Thank you again,
M.S.

Dear Tom,

Thank you for your thoughtful consideration in donating to the legal fund for Rev. Gale and Rev. Parrino. I pray Yahweh will return it to you two fold.

I will try to recap the events around again. Four or five cars of armed men from the local Sheriff's Dept. and Federal Agents came racing into our yard on October 23, 1986. They did not identify themselves to me. I did not hear them read Rev. Gale his rights.

They arrived at 7 a.m. Rev. Gale was still in bed. He got up, put his bathrobe on and went out on the porch. At this time they put handcuffs on him, a chain around his waist and handcuffed his hands to the chain.

They took him to Fresno County Jail and put him and Rev. Parrino in an underground holding tank. Bill said it was like a dungeon. They were booked finally and Bill was put in the so-called Infirmary. This was a number of men in a cell lying on mats.

They had a couple of "bail hearings" in Fresno, however, it seems no one was listening. They were held without bail.

The charges on the indictment read: Conspiracy, Mailing Threatening Communications, Attempt to Interfere with the Administration of Internal Revenue Laws and Aiding and Abetting.

On October 27 after one of the so called hearings ending 12:30 p.m., they were put in a holding tank in the Federal Building. The T.V. news showed them taking them out some time after dark, and putting them in a van type vehicle. They were taken with all the haste to Lompoc, Ca. They were only wearing light weight jump suits provided by the jail. Bill caught a terrible cold. They stayed in Lompoc until morning then flew on to Las Vegas.

There is one blessing, Las Vegas has far better quarters. They have their own rooms and some free time.

These two men, career men, land owners and no previous records are being held without bail, even though to this date I have not been given one specific thing that either one has done personally to warrant such action!

Back to the Indictment. The government says that the Committee of the States and the Un-organized Militia is a conspiracy to train men to do harm to IRS and Judges. Quote - "The organizations conducted classes on anti-tax ideology, and paramilitary training in order to prepare the defendants and their co-conspirators for confrontations with officers of the IRS and other public officials."

Anyone who has ever been to a seminar knows this is a lie. In the first place if anyone wanted to do anything to an IRS Agent, I hardly believe he would have to come to California to learn how. If so, he is in big trouble right off the top.

Also, Bill gave a sermon on the subject "Committee of the States" and mailed it across the U.S. (Is this a crime?)

On November 20, 1986 Slim Parrino had a "bail hearing". Just before the hearing there were headlines in the "Las Vegas Review" newspaper saying

"Las Vegas Murder Plot Exposed". I guess this was to ensure no bail. On the 20th the newspaper reads "Bail Denied Would-Be Assassin" with a big picture of Rev. Parrino in handcuffs, looking like a Christian gladiator headed for the lion's den!

The newspaper got this fantasy from the government officials. The officials said they had an affidavit signed by an inmate from the Fresno jail stating that Gale and Parrino - on the telephone - held a "grand jury" meeting to sentence these officials to death. Now that is real cute! Can you imagine making conference calls from a jail cell? Or any grand jury deciding a death sentence?

On the inmate that signed the affidavit - he is in jail for numerous crimes and I understand that he keeps trying to steal his brother's identity, who is in a mental institution. And the judge believes him? Well, he is holding Slim Parrino, a retired Sheriff, and Col. Gale, Ret. without bail!

The whole lengthy article reads like an old Hollywood B movie, where the guy that owns the town wants the #1 guys out of the way, so he accuses them of some crimes. Then he gets #2 guy to do the crimes and make it look like the #1 guys did it. Then he starts yelling "See I told you they were going to do it!" Wow!!

Where is Magnum P.I. when you need him?

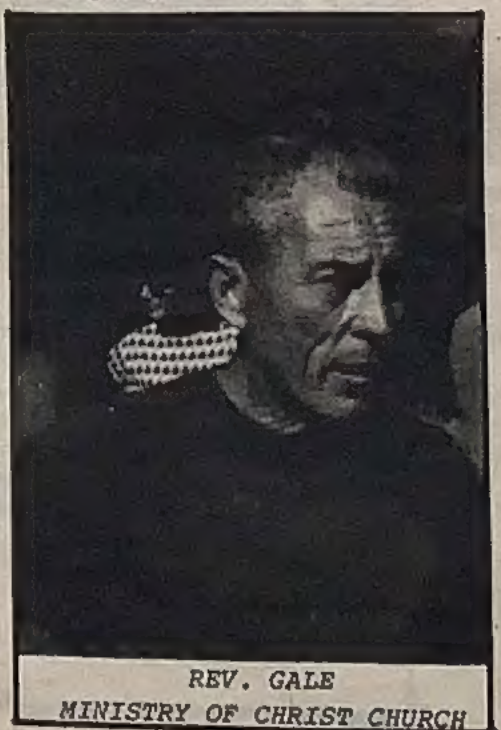

I am very proud of Col. Gale and Rev. Slim Parrino. They have the guts to stand tall for what they believe, regardless of political and religious persecution. They have the true spirit of their founding fathers, who also suffered for the same beliefs. Political prisoners are not new in our nation's history and yet our great nation and what freedom we have left is hanging by a thread. How many people care - at the moment?

The trial is scheduled for January 12, 1986 at the Federal Building in Las Vegas, Nevada.

Thanks so much for your prayers. Please continue. In Bill's present health I truly never believed he could survive what he has gone through. He is only living by the strength of Yahweh. Both men need your continual prayers.

May Yahweh Bless and Keep you also,

Roxanne Gale

Durr Incident:

FROM PAGE- 5

etic individuals and organizations that recognize her plight. Margaret Durr is only the first of what will be a growing army of millions of Heartlanders who must sooner or later come face to face with the AIDS issue. When they do, Aryan racialists must be there as a support network which offers sympathy and understanding to individuals and families answering the instinctual call to preserve themselves. As ZOG tries harder and harder to deny that this epidemic is the result of blood impurity, the cracks keep emerging and spreading.

The AIDS crisis is growing larger every day. As its implications are continually downplayed and its causes denied, opportunities for Aryan racialists are made clear.

The worn-out World view of Scientific Materialism has sown its seed. The crop is now maturing. Soon the system will reap its harvest of death, decay, social panic and unrest. Unfortunately, there are dark days ahead, but only in a situation of disenchantment can our faith make gains, for satisfied people never demand change. The vanguard of the Aryan racialist movement has come to grips with this scenario early on. We realize that we must act as the cracks emerge. If we are to "bust the dam" of lies and deceit, we must widen the cracks as they appear. That is our task in gaining ground for our world view. We must depose the world view which stands in our way.

By gradually exposing victims of the system world view to our support and view we will gain ground. A small virus has now become a potent ally in our fight. We do not have millions ready to march for our cause, so we must make use of those allies we do have. As that small virus takes out those who defied the ironclad laws of blood-purity, it paves the way for the spread of our faith. As it marches forth, our faith must follow. We must preach the gospel of racial purity in the face of this catastrophe which is taking out our enemies left and right. Now is the time to reach our brothers and sisters as the impact of "the virus" causes the heartland to think hard on the purity of their families' blood. Through such a ruthless propaganda assault our ranks are guaranteed to grow. Only by such growth can we ever achieve our goal of true racial victory.

Aryan Nations Report News From The Northwest

are involved in). The more astute viewers were very suspicious as to the happenings being made manifest.

On September 7th, Ed and Olive Hawley are arrested at the Spokane, Washington, Fairgrounds for passing counterfeit 20-dollar bills. Two other accomplices were seen in Kootenai County Idaho, but were not apprehended. Now things really began to move.

September 9th, Bob Miles, Richard Butler, and David and Debbie Dorr fly to Chicago to appear on the Oprah Winfrey TV Show. Debbie Dorr expresses anger that the program was intended to be exclusively for her and David but that at the last minute Pastors Miles and Butler muscled in on their action. The Dorr's went out of their way to make sure that Robert Pires attended that gala event, and he was as obvious in the audience as a stormtrooper at a Bar Mitzvah. By this time the suspicion of the Dorr's motives is reaching a danger point.

On September 15th a small pipe bomb explodes on the back porch of the Rev. Bill Wassmuth home with results being the vicious murder of his garbage can and the breakage of two windows, as shown in the November issue of LIFE magazine, page 28. Yes, indeed, the carnage was devastating, and The Most Holy Reverend was instantly made a celebrity and elevated to the position of candidate for Sainthood.

The media lapdogs, who had been previously sent from all corners of the nation, now had meat to feed on. How convenient it was that the media was there, and operating right on cue, just when things began to unwind. With a week of press orchestration of the bombing, Wassmuth's Human Rights Task Force held a rally at North Idaho College, Coeur d' Alene with more than a 700-participant turnout. What a coincidence! Things are quiet for a few days.

Then on September 26 a break-in and burglary occurs at the Aryan Nations office. Someone obviously familiar with the entire operation at the church forces the office door and steals an Apple IIe computer and an armful of software programs, cash money and checks, two video cameras and equipment, and a 35mm camera. Close to \$4,500.00 worth of equipment and cash was taken. The contraband was later discovered by police in the van of Robert Pires and in the Dorr's home workshop, while the Apple IIe was found in the Dorr's living room. Security on the church grounds could never have been breached except by someone familiar with the guard dogs and unique conditions at the facility. To date the property has not been returned by the authorities and the pastor has voiced every intention of prosecuting the thieves.

On September 28th the Human Rights Task Force sponsored another "revival" and 300 attend the tear-jerking extravaganza at the Westminster Church. By this time the press has the entire Coeur d' Alene community foaming at the mouth with hatred against their own racial flesh. The minorities are in ecstasy over their "Kill Whitey" fantasies and the ADL's are dancing in the street. Pastor Butler tries to calm the troubled waters by sponsoring a press conference to offer a reward for the apprehension of the bombers at the local county commissioner's "public" meeting room. The local press is happy to cover the meeting. The proposed meeting was to be a closed meeting for only Human Rights Task Force representatives and the media. Saint Wassmuth and Company refuse to attend Pastor Butler's press conference, and at the last minute the County Commissioners retract their permission to use the county "public" meeting room. Pastor Butler is angry but he has no choice but to start. The "haters" are silenced and the sacred continues to catch fire to the masses to "hate the haters."

On September 29th Pastor Butler is scheduled to leave for Michigan to speak at the annual meeting of Pastor Robert Miles. On that very same morning the Coeur d' Alene Blitz occurs — pipe bombs are mysteriously exploded at the Federal Building, The Luggage Rack, Jack's Family Dining, and there are phoned-in bomb threats to the Kootenai County Courthouse and Coeur d' Alene Post Office. One of the pipe bombs fails to detonate and leaves the feds with red hot evidence to work with. By this time the city (with the support of the ADL) is "outraged" and "incensed" by the obvious Aryan Nations terrorism. The police are totally stilled and have nothing to go on except ADL accusations, screeching, and finger pointing. Then the sinister plot comes crashing in on itself. It appears that the next phase of the conspiracy includes the assassination of Pastor Butler himself.

At this point Robert Pires (Black Bart) gets cold feet and envisions himself being put neatly away in a federal cage awaiting the Second Coming. He hits the panic button and runs to the feds to spill his guts. The very next morning the joyful caravan of 73 federal officers in 52 squad cars pull off a massive raid on the Dorr's country retreat. Bingo! They hit paydirt: over 50 firearms along with counterfeit money by the bundles are confiscated in the raid, and David Dorr is arrested on the spot. A second search of the property was conducted the next day and even more money and more guns were found, including fully automatic machine guns.

At present Ed and Olive Hawley and David Dorr are facing conspiracy to manufacture, bombing, and counterfeiting charges and are in jail without bond, awaiting trial. Robert Pires is awaiting trial on bombing charges only. Debbie Dorr is suspected of being the key figure as an "unindicted co-conspirator" in the operation. The Feds are making every effort to connect her, but as yet are unsuccessful in making an arrest.

The FBI, local sheriff, press, and Wassmuth's Task Force all know that Pastor Butler and Aryan Nations has had nothing to do with the entire vaudeville act, but the local and nationwide propaganda message insists that he was the leader of the pack, totally responsible for bombing his own backyard.

The Dorr's are not hopelessly insane people; they are very capable and intelligent. These questions must be asked: What was their ultimate objective? Who backed them for a year and a half or more? Was Pires a federal or ADL plant or operative? Were there any others? The entire episode is still under federal investigation; it will be very interesting to discover what comes of it all. At present the liberal rumor mongering, slanderous press attacks, and the anti-White propaganda continues. So we must assume that it is business as usual in the sleepy little north Idaho panhandle.

The greatest strength of your movement is our continuing spirit of unity, solidarity, and mutual cooperation. We simply cannot tolerate the kind of treachery displayed during the last few months in Idaho. If high-spirited, talented people want to enter the fight, let them start their own organization and join the great diversity of the movement. But to subvert and attack their own for glory and notoriety will simply not be tolerated.

transient "than an individual with an apartment."

But Roger Dokken, an assistant U.S. attorney handling the case, said of Ross, "What we have here is the bombmaker of the whole conspiracy."

Ronald Myers, the FBI special agent who supervised the case, testified that Ross lost the fingers while assembling a pipe bomb July 9 at a Kingman-area ranch at which much of the robbery plan was hatched.

Ross used a fictitious name at a hospital and told Mohave County sheriff's investigators that a device he found along the road had blown up in his hand, Myers said.

Sitver denied bail to Ross; Jack Maxwell Oliphant, 63, owner of the 320-acre ranch where the explosion occurred; and Daniel Taylor Arthur, 30, a machinist and tax protester. Arthur, who formerly lived in Phoenix, had been living in a tent on Oliphant's ranch.

Arthur pointed a rifle at a helicopter carrying law-enforcement agents Monday when the ranch was raided, Myers said. Arthur's attorney contended Wednesday that the man only was using the rifle's telescopic sight to figure out who was in the helicopter.

Arthur and his former wife, Theresa, were accused by Arizona revenue officials in 1984 of giving false information that led to their receiving erroneous refunds of \$2,514 on their state taxes, records in Maricopa County Superior Court show.

In fighting the accusation, Arthur challenged the validity of state and personal-income-tax laws. A Superior Court judge ruled against him in June 1985, and the Arizona Court of Appeals upheld the ruling in September, calling his claims frivolous.

Bail was set at \$75,000 for Kingman auctioneer Patrick Henry Schlecht, 30, and \$25,000 for his wife, Rita. A bail hearing is set for today for Foster Thomas Hoover, 46, who owns a ranch about 20 miles northeast of Flagstaff.

Those six were named in three indictments issued Wednesday by a federal grand jury in Phoenix.

Several supporters of the Schlechts who attended the hearings declined to be interviewed, with one saying, "You couldn't print what I would say."

In the indictments, Oliphant, Patrick Schlecht, Arthur and Ross were accused of conspiring to commit a violent act — a planned robbery of an armored car on U.S. 93 after it left Laughlin, Nev., casinos, businesses and a bank with a weekend's haul. Explosives, a mixture of potassium chlorate, dynamite and axle grease, were to be used along with firearms, homemade explosive and a disabling gas, according to the indictment.

Oliphant and Taylor were accused of videotaping the prospective locations of the robbery attempt and the escape route in July and August.

In August, the indictment says, Ross, Arthur and Oliphant tested and demonstrated the use of exploding arrows and a homemade mortar that fired pipe bombs.

Oliphant, who lost his right arm above the elbow years ago in a firearms accident, also faces a charge of solicitation to commit a violent crime.

Rita Schlecht was indicted on charges of assault of a federal

Aryans Observe Kink Day

by: Northern Press

It isn't too early to begin your planning to make the holiday a complete flop for ZOG, but a victory for Aryans. Yes, plan now for you and your family to boycott the 1987 observance of National Kink Day. When ZOG imposed the observance of a national holiday to honor Michael King, aka Martin Luther King, they expected the country to join in the festivities honoring a communist dupe. Aryans, though, will have different plans.

As the Jews, Kinks and other down-breeds unite in your community to slavishly honor an-ian's hero, make certain you and your family are counted out! January 19th will be the day of America's shame in 1987, and if your children's school is to mark the occasion, make certain your children are absent. If your place of employment is to slobber over the commie king, then the Aryan "Flu" will keep you at home.

There are many, and will be many more articles in our racial journals outlining the role played by King in our country's disgrace and degradation. We will not cite chapter and verse here. This message is one of joy; count yourself out of any semblance of participation. Let the Kinks and Kikes unite in a day of "chittlins" and bagels, but, let them look in vain for any Aryan money or support. Let each Aryan and each Aryan family unite to remember the martyrs of our racial cause now incarcerated by the ZOG courts and to pay homage to those who have fallen.

Let each Aryan community hold a solemn but joyful ceremony in which the names of the martyrs are remembered and their deeds retold for the education of each adult and child attending. There can be no more fitting resistance to ZOG and the Kink-Kike connection than the gathering of Aryans to mark their own heroes and to gather communal strength and resolve for the Aryan struggle which is now upon us. We find joy in the knowledge that we have the Aryan warrior's spirit within us and strength in the knowledge our Aryan comrades are at last uniting in common cause. Aryans! Awake! Resist! United we shall prevail!

officer and using a firearm in an assault. Those charges stem, the indictment says, from an incident Monday in which she pointed a .357-caliber revolver at FBI Special Agent Mike Roof, who was arresting her husband.

The third indictment accuses Hoover of possessing a prohibited destructive device — a homemade mortar.

Two others arrested Monday were not indicted Wednesday. Steven Christiansen, 42, of Fort Collins, Colo.; and David Emerson Gumaer, 47, of Phoenix, were charged earlier with illegally selling Uzi machine guns to federal agents in October 1985. Both have been released pending trial.

A Cobra gunship was flown up from Arizona Air Force base locally to "supervise" the arrests of three Arizona Patriots. This is the third "military" intervention in (or support of) civilian (police) operations.

THE ZIMBABWE Herald reports that a housewife in Muzarabani was shot and killed by her husband in the wee morning hours, after "he mistook her for a wild pig." No word on whether there would be any charges.

hundreds of rules, many of them unwritten, and we enforce them at whim.

We can transfer any prisoner to Marion, regardless of his security level and disciplinary history, and within the last six months we have increasingly placed prisoners here who have not been charged with any infraction. For over three months, we've stopped transferring prisoners away from Marion. We give prisoners different stories about what they have to do to leave Marion. We hold some for years before we put them in the pre-transfer units; others go in six months or less. Prisoners are thus made to realize that what they do or don't do will not keep them out of Marion — we will decide that.

The harsh conditions at Marion, and the uncertainty of transfer, have been valuable in developing another tool, informants. The knowledge that some prisoners are secret informants keeps all prisoners further isolated, unwilling to trust anyone. The Civil Rights Division of the Justice Department and congressional consultants recommend that we stop using this tool, but luckily no one can make us.

There has been quite a bit of

prisoner-prisoner violence, including three killings and several maimings and a certain amount of self mutilation. There have been some assaults on guards. But since the hearings in 1985 charging massive brutality by guards, we have been able to keep most of this out of the papers.

Conclusion

Our policies at Marion have succeeded in creating in many prisoners there a sense of total isolation and the belief that they have no control over their lives. Any number show increased signs of emotional disturbance: serious depression, intense anger, and growing paranoia. We have increased racial antagonism. We have frustrated efforts at peaceful protest. We have control!

Furthermore, our three year lockdown at Marion has been invaluable in developing our skills for isolating, tormenting, and controlling human beings, and we foresee many applications for these techniques. Our only problem is the danger of public attention and criticism — or staff disenchantment — but if these can be controlled, we've opened up an exciting new world in totalitarian methodology.

The Aryan Family

FROM PAGE -5

task of destroying the strongest bastion of Aryan strength - the family. The family has brought the Aryan through from the misty times of the past to today. It was within family circles that the lessons of love, honor, responsibility and faith in our folk were learned. When we pass those responsibilities into the hands of the Jew-communist doctrinaires infesting the government and schools, we have abrogated our racial heritage. Those who have lost the family have lost their reason for living.

Look closely at your own life. What have you given to your family? The new car does not count, nor the flashy clothing or television, nor any of the material trappings of our tensile society. Have you given of yourself? Have you taken time to be with your children, to understand what they are reading, what they are being taught and correcting the errors which the system drums into their receptive minds? Have you assured them they have a home filled with love and care where they can escape the degradation of the materialism of today? Have you taken steps to insure they have Aryan children with whom they may play and associate, that your Aryan friends and their children may come into your home for an evening or day of wholesome recreation? These things cost nothing.

Your Aryan friends will not judge you by the outer trappings but by the inner strength of your life. They will rejoice with you in the warmth and love radiated by your Aryan family; they will find strength in the wholesome food which graces your table. Remember the simply fare of Adolf Hitler and the honor given to the family by the National Socialists in the Germany of the golden era. No higher honor was attained than the recognition given to Aryan mothers in that time. No value was placed upon the false, the tensile. The value of one's life was reflected in service to family and to folk, to the fulfillment of Aryan destiny - the betterment of our race through the purity of our blood.

The Aryan of today must simplify. Reduce your material possessions to the absolute minimum which will insure good health and comfort. Escape the

cycle of credit buying and you free yourself and your loved ones from the yolk of the Jew. Teach your children by example and guide them in the study of the lessons of our Aryan people and our accomplishments. Show them the true meaning of the Aryan's love for family by example. A home where the mother raises her young securely, where all of the family come with joy at the ending of each day to share in the warmth and love of one another. Where the father is grateful for the opportunity to be responsible for the material, educational and spiritual guidance of his family and shares these responsibilities with his wife who teaches the graces of love and sharing to her children. Sharing in the duties of the home, sharing in the obligations of one to another today, and through life.

The Aryan family is the most dangerous threat to the world view of the Jew. The Aryan family is rapidly moving to extinction by the deliberate manipulation of government. The government has already destroyed the Negro family in the United States, and the Aryan family is nearly gone. The route to survival lies in the family. Within the family the Aryan blood is secure, within the family is the hope for our future. There will be no "Aryan Nation," no "New Order," no tomorrow at all for the Aryan if the family is allowed to die.

Aryans group together not as individuals, we group together as extensions of our respective families. If we do not have Aryan values inculcated in the home from childhood, then the individual's chance of random encounter with those who possess the Aryan spirit becomes slight. It is an Aryan community which has been our bulwark, for from the Aryan family comes Aryan warriors. From Aryan warriors will come the survival of our race. As the Aryan family is deliberately destroyed, so too is the Aryan warrior. Only you, today, can stop the process which otherwise will destroy us. The survival and strength of the Aryan family is crucial. If the battle is won, we survive as a race; if lost, we sink into the oblivion of racial miscegenation and are one with the mud races.

Carry On

by Robert Service

It's easy to fight when everything's right
And you're mad with the thrill and the glory;
It's easy to cheer when victory's near.
And wallow in fields that are gory.
It's a different song when everything's wrong
When you're feeling infernally mortal;
When it's ten against one, and hope there is none.
BUCK UP LITTLE SOLDIER, AND CHORTLE!

Carry on! Carry on!
There isn't much punch to your blow.
You're glaring and staring and hitting out blind;
You're muddy and bloody, but never you mind.
Carry on! Carry on!
You haven't the ghost of a show.
It's looking like death but while you've a breath,
CARRY ON, MY SON! CARRY ON!

And, so in the strife of the battle of life
It's easy to fight when you're winning;
It's easy to slave, to starve and be brave
When the dawn of success is beginning.
But the man who can meet despair and defeat
With a cheer, there's the man of God's choosing;
The man who can fight to Heaven's own height
Is the man who can fight when he's losing.

Dedicated to our comrade Mick Mac who is recovering from illness.

■ **RACE AND REASON** — A Boise, Idaho, public-access cable TV station's broadcast of videotapes produced by a white supremacist may at least expose racism in the community, says a civil rights leader.

Stan Sorensen, leader of a small group calling itself The Arm of God, arranged to have at least 35 videotapes shown at the rate of two a week on cable Channel 12 in Pocatello, which with 50,000 residents, is the largest city in southeastern Idaho.

The "Race and Reason" series presents the views of Tom Metzger, founder of the White American Political Association and former head of the California Ku Klux Klan.

build a second canal from the Atlantic to the Pacific ocean, utilizing Lake Nicaragua and the San Juan river low lands. Lake Nicaragua and the San Juan river low lands had been considered as the Atlantic-Pacific canal even before the building of the Panama Canal.

In researching the history of canals, we find the following:

"The Bryan-Chamorro Treaty of 1916 gave the United States an option on a canal route through Nicaragua, and naval bases".

Was the 1970 termination of the Bryan-Chamorro canal treaty Somoza's sin that led to his downfall in 1979?

Just stop and ponder for a moment what a second canal through Nicaragua would do to the international banking cartels. The Panama Canal, to the world's shipping, is, like the Suez Canal was to Africa in England's hay day. The 500 or so banks around Panama Canal and Cayman and other islands perpetually draw international foreign exchange revenue from all parts of the world.

B. A canal through Nicaragua would be about 1000 miles shorter shipping route to many shippers - which would draw much shipping business and foreign exchange revenue from the Panama Canal and the area - entrenched international banking cartels.

C. A canal through Nicaragua could/would become a steady revenue of foreign exchange funds to Nicaragua and its friendly governments.

D. In final analysis, it appears that the orchestrated resistance to the Sandinistas' government has the same underlying motive as the Siberian natural gas line to Europe had some time ago. Just as the Siberian gas line to Europe is a constant source of western currency revenue to the Soviet government - so also an Atlantic-Pacific canal through Nicaragua could/would be a constant source of foreign exchange revenue to the Sandinistas and to its friends.

NAACP issues warning over racist show

By TRINDA PASQUET
SACRAMENTO UNION STAFF WRITER

Racism could erupt in Sacramento if a white supremacist program continues to air on cable Channel 23, warned a group of community activists Friday.

Although they did not dispute the group's First Amendment rights to air their views on the community access channel, members of the Sacramento chapter of the NAACP vowed to fight the program with citizen pressure and television programs of their own.

Esther Nelson, president of the National Association for the Advancement of Colored People's local chapter, advised the 33,000 Sacramento cable subscribers to "ignore" "Race and Reason," the two-part series produced by Tom Metzger, former dragon of the California Ku Klux Klan and sometime Democratic congressional nominee in San Diego County.

Although the program did not directly advocate violence against blacks, Nelson said it could

Members of the Sacramento chapter vow to fight the program

trigger a "violent ripple effect" in the community.

In 1923, the Ku Klux Klan first organized in Sacramento, Nelson said during the Friday morning news conference.

"At that time, we vowed arm and arm with leaders of the community to keep the Klan out of Sacramento," she said.

But in recent years, Nelson said many decision makers - "especially the Deukmejian administration - have turned a deaf ear to the problems of racism."

"We are calling on the community to bring about some sort of change," Nelson said.

The group also called for a grand jury

investigation into the financial backing of "Race and Reason."

If any public money was used to produce the program, the public ought to know and respond accordingly, said Marcus Crowden, NAACP board member.

The first installment of the program was shown Nov. 21. It targeted the black race and expressed opposition to the black dean at American River College.

In the second installment - scheduled to air at 7 p.m. Friday - members of the Jewish community are criticized.

Immediately following the 30-minute program, the Sacramento Jewish Federation will present, "The Camera of My Family: Four Generations in Germany 1845 to 1945." It is one of three productions the Jewish group has submitted to the Sacramento Cable Foundation, which coordinates use of the public access channels.

The Fed's publication continues: "If we study one of these loans being made to a storekeeper, we can see how this checking account "deposit" creation takes place".

"Let us now see how the introduction of frozen orange juice might affect a storekeeper. He might, let's say, decide that he ought to carry a stock of frozen juice, and therefore he would have to get a freezer showcase. He might then go to his bank and ask for a loan of \$7,000 in order to buy the juice and showcase to hold and display it."

"The bank in making the loan, would not give the storekeeper 700 ten-dollar bills, but would, via the bank's accounting or bookkeeping procedure credit his checking account with \$7,000 of checking account "deposit" checks on those created checking account deposit credits to pay for the showcase and the juice".

Pertinent to the above text, a 1964 House Banking and Currency committee publication, printed for the use of the Committee on page 6 poses the following questions:

Do private banks issue money today?

Yes. Although the banks no longer have the right to issue (print) bank notes, they can create money in the form of bank deposits when they lend money to business, or buy securities. The important thing to remember is that when banks lend money they don't necessarily take it else to lend (spend or invest). Thus they "create" it."

The Fed's publication continues: "This created "deposit credit" to the credit of the storekeeper's checking account is a "deposit" in the bank, just as much as a deposit you or I might make by pushing a ten-dollar bill across the teller's window and converting that ten-dollar bill into "deposit credits" money."

"The bank holds itself liable to pay out our ten-dollar deposit, if we draw a check against it, just exactly as it holds itself liable to pay out the storekeeper's "deposit" if he should draw a check against it."

At this point it becomes VERY IMPORTANT TO UNDERSTAND what is meant by: "the bank holds itself liable to pay". That bank statement is LOADED with specious implication to the financial students and the general public. That bankers' traditional statement "promise to pay" or "the bank holds itself liable to pay" simply means that the bank account "deposit credits" as ordered by the storekeeper's checks drawn upon his "bank created" deposit credits.

The Fed's publication "MONEY: Master or Servant" explains it this way: "It is important to note that, while your (storekeeper's) check is an order to your (storekeeper's) bank "to pay to the order of" so-and-so a certain sum of money (dollars and cents), it is not necessary for the bank to pay cash currency and coin to so-and-so. More often than not, the bank simply charges the sum of the checks against your (storekeeper's) checking account and credits the sum to another account."

White Children

in Front of an American Soup Kitchen

I saw White children, a long line of them, arranged in pairs, standing in front of the building where the poor are fed.

They waited, untalkative, weary, for their turn at the nightly spread.

They were dirty and in rags, squeezed up against housefront and railing.

Little White girls around pale White babies cupped hands that were failing.

Hungry, intimidated, they stood among lamps being lighted, Many with delicate faces by marks and dark bruises blighted.

Their clothing smelled of basements, ill-lit rooms, of scolding and White poverty, Their White bodies were scarred by deprivation and premature drudgery.

They waited: soon the others would be through, they'd be admitted to the hall,

Served with molded bread and vegetables, the soup in tin cups and all.

Oh, and then they'd grow sleepy and their twisted limbs would be untied

and night and good sleep would bring them to rocking-horses, toy soldiers, the rooms of marvelous dolls, the houses open wide,

and a White world, of happy White children.

Is it but a dream, or is it their future?

Happy White children, in a happy White world.

IS THIS THE FUTURE? IT'S UP TO YOU!

When the bank made the \$7,000 loan to the storekeeper, and via book entry procedure entered the \$7,000 of deposit credits to the credit of the storekeeper's checking account - the bank and the storekeeper increased the M-1 money statistic by \$7,000. Now, when the storekeeper draws checks upon those "bank created" deposit credits funds, the storekeeper is innocently putting the bank-created deposit credits money into circulation in the commercial arena.

And, in summary, the Fed's publication puts it this way: "Commercial banks, in short, normally extend (via bookkeeping procedure) credit to the borrowers in the form of "deposits" into the borrowers' checking accounts, and these deposits become additions to the M-1 money supply in our economy". "When the borrowers pay interest and repay their loans to banks, they use the money in their checking accounts to make the payments. Thus the banks destroy (extinguish) the money they created"

Mr. Robert H. Hemphill, 8 years Credit Manager of the Federal Reserve Bank of Atlanta in (1/24/39) Senate Document #23 on page 102 states:

"If all the bank loans were paid off, no one would have a bank deposit and there would not be a dollar of coin or currency in circulation. This is a staggering thought. We are completely dependent on the commercial banks for our money. Someone someplace had to borrow from a commercial bank, every dollar of money we have in circulation, cash or deposit credits. If the banks create ample synthetic (deposit credits)

money we are prosperous; if not, we starve. We are absolutely without a permanent government money system. When one gets a complete grasp of the picture, the tragic absurdity of our hopeless financial position, it is almost incredible, but here it is ignored by our leaders and public officials. The private deposit credits money creating monopoly in our midst, is the most important subject concerned and intelligent persons can investigate and reflect upon. It is so important that our present western free enterprise civilization may collapse unless the bank deposit credits money creating monopoly becomes widely understood and the defects remedied soon."

"What has been commonly called rebellion has more often been nothing but a glorious struggle in the opposition of kings and princes."

Murder Rates:

Dangerous Cities

Each year, the FBI compiles a statistical blockbuster titled *Crime in the U.S.* Based on numbers in the FBI's latest 368-page study, our totals show that Detroit overtook Gary, Ind., last year as the major city with the highest murder rate in the nation—58 per 100,000 inhabitants. Gary had 43 per 100,000.

Some other cities with inordinately high homicide rates in 1985 were Richmond, Va., with 41.5 murders per 100,000 people; St. Louis, with 39; Newark, N.J., with 37; and Birmingham, Ala., and Miami, tied at 34 per 100,000. Flint, Mich., had a 31.5 homicide rate, while Dallas and Fort Worth were tied at 30.

Three cities where gambling is legal showed the following murder rates: Atlantic City, N.J., 18.4 murders per 100,000; Las Vegas, 12.5; and Reno, 8.3.

board of the Sacramento Urban League, was the only NAACP member at the news conference Friday who had seen the first segment of "Race and Reason."

"I was shocked and dismayed," he said. "It's an outrage to the community...It sets a tone and opens the gate for other things to follow."

Other public access cable companies that have denied access to racist speakers have lost their cases, according to Robert E. Smith, executive director of the joint-pow-

ers Sacramento Metropolitan Television Commission.

He and another commission official acknowledged Friday that they have received about a dozen complaints about "Race and Reason."

"I also received a few calls from people who supported their fundamental right to express themselves," he said. However, nobody lodged a favorable response to the program's ideology, he added.

Smith said that increased complaints about the show will have no effect on whether it is shown or not

Concerning the P.O. Boxes:

The addresses listed are not a muddle of random P.O. boxes thrown together. Nor is it a favor we are doing for other organizations. These addresses are united under one specific goal: A voluntary association for the recruitment of Aryan youth towards racial revolution. The majority of chapters are directly headed by Aryan youth, while other affiliate chapters are organizations which have adopted the revolutionary voice of AYM-WSU as a youth extension of their present racial operative. One goal. One idea. United under one banner, working towards Aryan revolt - Aryan Youth Movement - White Student Union.

Dear Tom,

I wrote down a few things concerning the problems of an inmate and his family. Fighting the Bureau of Prisons and like minded organizations is a tough road to hoe. But nobody ever said this game would be easy. I, for one, sincerely appreciate your efforts. As you are aware, there is a constant psychological onslaught against an inmate. Especially their hand-picked targets. It is usually one thing after another and many times multiple head games at once. I can see the "officials" in their offices laughing as they pull the strings on their puppets. You've got to hand it to them, they are experts at what they do. And of course it's all designed so they can tell you how to think. Ha! You've heard it all before. They'll stimulate you a little this way - analyze your reaction - then stimulate you a little that way - again analyzing. Oh - but they don't have time for all that - I've heard people say. I say the hell they don't. They are truly game masters. The inmate must be aware of this and not allow their games to get to him. As in any survival situation, strength is imperative. Keeping a cool head is also imperative. You've got to know when to absorb, when and how to react or not react. When to flow with the punch and when to punch back. An inmate must constantly be aware of their games. It's the same move-countermove game as out there - only here you're under their direct control and the game is therefore intensified. I have learned much - they are good teachers.

The whole thing honestly doesn't seem like reality. I'm just here in some temporary dimension. It's a trip. I can honestly separate my spirit from my carnal. What I'm saying is the old saying "They've got my body, but they'll never get my mind." Because my mind is free and separate from my body.
